RE: Commingling Application Helmley B-1 API Number 15-081-20334-00-02
SE SE 3-29-34W, Haskell County, Kansas

Dear Ms. Carder,

This letter is to follow-up our phone conversation this morning regarding the Helmley B#1 commingling application. You will need to correct the perforations for the Kansas City D and B zones. Both now are given the same perforation interval of 4483-94'. Enclosed is a copy of your ACO-4 with the perforations highlighted that need amending or clarification. Please re-submit a corrected ACO-4 to the KCC and forward copies to the offset operators.

If you have any questions please contact me at 316-337-6223.

Thank you,

Robert Petersen

RE: Commingling Application
Helmley #B-1-SE Se Sec. 3, T.29S, R.34W Haskell County, Kansas
API No. 15-081-20334-00-01

Dear Ms. Carder:

Your "Application for Commingling" (ACO-4) for the above described well has been technically reviewed and approved by the Kansas Corporation Commission (KCC) per **K.A.R. 82-3-123a**. This application, which was received by the KCC on **May 12, 2005**, concerns approval to simultaneously produce from the following **three** sources of supply through the same tubing string in the same wellbore: the **Lansing B**, **Lansing D**, and the **Marmaton** formations.

According to your application, the estimated current production from the **Lansing B** source of supply is **50 BOPD and 50 BWPD**. The estimated current production from the **Lansing D** source of supply is **21 BOPD and 22 BWPD**. The estimated current production from the **Marmaton** source of supply is **18 BOPD and 17 BWPD**. The total estimated current production from all sources of supply in the subject well is **89 BOPD and 89 BWPD**. Included in this application was operator verification that the offset operators had been formally notified of this application. No protest had been filed within the 15-day protest period.

Based upon the depth of the **Marmaton** formation perforations, total oil production shall not exceed **200 BOPD** and total gas production shall not exceed **50%** of open flow. Docket Number **CO 040501** has been assigned to this approved application. Please use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.

Sincerely,

Robert Petersen
