RE: **API No. 15-195-21406-00-01**
Demurry #2
SE NW NW, 10-11-21W
Trego County, Kansas

Dear Ms. Foss:

Your "Application for Commingling" (ACO-4) for the above described well has been technically reviewed and approved by the Kansas Corporation Commission (KCC) per **K.A.R. 82-3-123a**. This application, which was received by the KCC on **April 18, 2005**, concerns approval to simultaneously produce from the following **two** sources of supply through the same tubing string in the same wellbore: the **Topeka and Lansing-Kansas City**.

According to your application, the estimated current production from the **Topeka** source of supply is **9.86 BOPD** and **9.41 BWPD** and the estimated current production from the **Lansing-Kansas City** source of supply is **9.32 BOPD** and **12.21 BWPD**. The total estimated current production from all sources of supply in the subject well is **19.18 BOPD** and **21.62 BWPD**. Included in this application was operator verification that the offset operators had been formally notified of this application. No protest had been filed within the 15-day protest period.

Based upon the depth of the **Lansing-Kansas City** formation perforations, total oil production shall not exceed **100 BOPD** and total gas production shall not exceed **50%** of open flow. Docket Number **CO 040504** has been assigned to this approved application. Please use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.

Sincerely,

Bob Petersen
