RE: Peavey #12 Commingle Application
Elysium Energy, L.L.C. (Operator #32754)

Dear Mr. Petersen:

Attached is Form ACO-4 with attachments for the commingling of production from the Arbuckle, Lansing/Kansas City and Topeka formations in the Peavey #12 well. The Peavey #12 well is currently producing from the Arbuckle. New perforations in the Lansing/Kansas City and Topeka will then be commingled with the Arbuckle

Attached is an affidavit certifying that Elysium Energy, L.L.C. has mailed a copy of the application (Form ACO-4) to all offset operators within a ½ mile radius of the Peavey #12. Also attached are copies of the certified mail receipts to offset operators.

If you should require further information or have any questions, please feel free to contact Jim Annable at 303-389-3610 or by email at jannable@patinaoil.com.

Sincerely,

A handwritten signature in black ink, appearing to read "J Annable", is written over a faint circular stamp.

James Annable

RE: ^{OSI} API No. ~~15-013-24867-00-01~~
Peavey #12
N/2 SE 13-11-18W
Ellis County, Kansas

Dear Operator:

Your "Application for Commingling" (ACO-4) for the above described well has been technically reviewed and approved by the Kansas Corporation Commission (KCC) per **K.A.R. 82-3-123a**. This application, which was received by the KCC on **June 13, 2005**, concerns approval to simultaneously produce from the following **three** sources of supply through the same tubing string in the same wellbore: the **SHAWNEE, LANSING-KANSAS CITY** and **ARBUCKLE**.

According to your application, the estimated current production from the **SHAWNEE** source of supply is **1 BOPD** and **10 BWPD**. The estimated current production from the **LANSING-KANSAS CITY** source of supply is **2 BOPD** and **20 BWPD**. The estimated current production from the **ARBUCKLE** source of supply is **6 BOPD** and **197 BWPD**. The total estimated current production from all sources of supply in the subject well is **9 BOPD** and **227 BWPD**. Included in this application was operator verification that the offset operators had been formally notified of this application. No protest had been filed within the 15-day protest period.

Based upon the depth of the **ARBUCKLE** formation perforations, total oil production shall not exceed **100 BOPD** and total gas production shall not exceed **50%** of open flow. Docket Number **CO 060501** has been assigned to this approved application. Please use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.

Sincerely,

Bob Petersen
