RE: Approved Commingling CO 070503
Anthony B #2, SE NW SW, Sec. 32, T.33S, R.33W, Seward County, Kansas
API No. 15-175-21977-00-00

Dear Ms. Carder:

Your "Application for Commingling" (ACO-4) for the above described well has been technically reviewed and approved by the Kansas Corporation Commission (KCC) per **K.A.R. 82-3-123a**. This application, which was received by the KCC on **July 28, 2005**, concerns approval to simultaneously produce from the following **two** sources of supply through the same tubing string in the same wellbore: the **Lower Morrow** and the **Chester** formations.

According to your application, the estimated current production from the **Lower Morrow** source of supply is **150 MCFGPD**. The estimated current production from the **Chester** source of supply is **100 MCFGPD**. The total estimated current production from all sources of supply in the subject well is **250 MCFGPD**. Included in this application was operator verification that the offset operators had been formally notified of this application. No protest had been filed within the 15-day protest period.

Based upon the depth of the **Chester** formation perforations, total oil production shall not exceed **300 BOPD** and total gas production shall not exceed **50%** of open flow.

Docket Number **CO 070503** has been assigned to this approved application. Please use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.

Sincerely,

Robert Petersen
