RE: **Approved Commingling CO080701**
Stannard #1-22, Sec. 22-T30S-R13W, Barber County, Kansas
API No. 15-007-23031-0002

Dear Mr. Greenbaum:

Your "Application for Commingling" (ACO-4) for the above described well has been technically reviewed and approved by the Kansas Corporation Commission (KCC) per **K.A.R. 82-3-123a**. Notice was examined and found to be proper per **K.A.R. 82-3-135a**. No protest had been filed within the 15-day protest period. This application, which was received by the KCC on **August 1, 2007** concerns approval to simultaneously produce from the following four sources of supply through the same tubing string in the same wellbore: the **Marmaton, Mississippi, Kinderhook, and Viola** formations.

According to your application, the estimated current production from each source of supply is as follows:

	<u>BOPD</u>	<u>MCFPD</u>	<u>BWPD</u>
Marmaton	1.0	55	0
Mississippi-Kinderhook	10	10	0
Viola	2.5	60	0

The total estimated current production from all sources of supply in the subject well is **13.5 BOPD, 125 Mcfpd and 0 BWPD**.

Based upon the depth of the **Viola** formation perforations, total oil production shall not exceed **200 BOPD** and total gas production shall not exceed **50%** of the absolute open flow (AOF).

~~Docket Number **CO080701** has been assigned to this approved application. Please use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.~~

Sincerely,

Rick Hestermann
