gas well on the gr	ounds that said well:
	est a one-year exemption from open flow testing for the Bruce #1
	liation and/or upon type of completion or upon use being made of the gas well herein named.
correct to the best	of my knowledge and belief based upon available production summaries and lease records
and that the foreg	oing pressure information and statements contained on this application form are true and
exempt status und	er Rule K.A.R. 82-3-304 on behalf of the operator CMX, Inc.
exempt status und	

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject of the subject
