Re: Carlson Well No. 1
NE NE NW Sec. 2-16S-4W
Saline County, Kansas

Mr. Levi B. Sherman
American Petrofina Company of Texas
P. O. Box 209
Russell, Kansas

Dear Mr. Sherman:

This will acknowledge receipt of your letter dated March 9, 1964, and the attached invoice no. 8737-W for the plugging assessment on the above captioned well.

Our Invoice No. 8737-W for the amount of \$38.43, may be in error, but as you can see by the well plugging application form filed by your company, the total depth of the well is 3843 feet. Our well plugging supervisor Mr. Gilbert J. Toman showed the total depth of the well as 3843 feet on his report. The well log and the attached well plugging record show the total depth of the well as 3504 feet, and your letter states that the total depth is 3483 feet.

We have a number of total depths to choose from and usually in cases of this kind we use the total depth shown on our district agent's report as the final choice. We believe that the agent supervising the plugging of the well should know the correct total depth of the well.

If you are certain as to the correct total depth of this well, after reading the attached forms, please advise us accordingly and we will send you our invoice to agree with your final decision.

Very truly yours,

S. S. GREIDER

Gentlemen:

We are returning your Invoice #8737-W which we believe is in error. This invoice is for plugging assessment on the Carlson #1. You have charged us \$38.43 for the No. 1 with a total depth of 3483 feet. The charge should be \$34.83 on the basis of one cent per foot as we understand the basis of charges for plugging.

Please advise if we are right or wrong and I will process the invoice for payment. Invoice #8737-W is attached.

Very truly yours,

Levi B. Sherman
