Re: Renda Energy LLC, Operator's License 34621
Well Plugging Application (Form CP-1)

Dear Sir/Madam:

Our firm is Kansas counsel for Renda Energy LLC, a Texas corporation, under Kansas Operator License 34621. Renda Energy LLC is in the process of terminating and releasing its lease with Ed Sheen in Harper County as described and depicted in the Well Plugging Application so attached hereto. Renda Energy LLC has engaged the services of Mike Kelso of Mike's Testing and Salvage, Inc., to plug and abandon the Sheen 1-35 well and complete the cleanup of the well site to the satisfaction of the landowner and for approval by the KCC.

Once I receive confirmation from Mr. Kelso on the status of his services, I will instruct him to contact the KCC to review, approve, and inspect the site for final sign off.

This letter is to acknowledge that there also is an open clean up penalty that will be addressed once the site has been plugged and restored to the satisfaction of the landowner and the KCC. Notification of the plugging application will be provided to the mineral and surface owners that are subject to the Renda Energy LLC leases and 40-acre unit.

Should you have further questions or concerns, please feel free to call.

Very truly yours,

HINKLE LAW FIRM LLC

Re: Sheen #1-35

HARPER COUNTY, KANSAS

Dear Operator:

This letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. **Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.**

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. This notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well.

This notice is void after March 15, 2014. The CP-1 filing does not bring the above well into compliance with K.A.R. 82-3-111 with regard to the Commission's temporary abandonment requirements.

Sincerely,

Steve Bond
