exempt status under Rule K.A.R. 8			
and that the foregoing pressure in	nformation and statements cor	ntained on this application t	orm are true and
correct to the best of my knowledg	ge and belief based upon availa	able production summaries a	and lease records
of equipment installation and/or up			ell herein named.
I hereby request a one-year ex	xemption from open flow testing	g for the MLP Wright 2-23	
gas well on the grounds that said	well:		
(Check one)			
is a coalbed me	ethane producer		
is cycled on plu	unger lift due to water		
is a source of r	natural gas for injection into an	oil reservoir undergoing ER	
is on vacuum a	at the present time; KCC approv	/al Docket No	· , .
is not capable	of producing at a daily rate in e	excess of 250 mcf/D	
		•	`.
I further agree to supply to the	e best of my ability any and all	supporting documents deep	med by Commission
staff as necessary to corroborate	this claim for exemption from t	testing.

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
