ONE POINT STABILIZED OPEN FLOW OR DELIVERABILITY TEST

(See Instructions on Reverse Side)

Type Test:

- Open Flow
 Deliverability

Test Date:
10/1/2012

API No. 15
03321137-0000

Company Chesapeake Operating, Inc.		Lease Ferrin		Well Number 3-15	
County Comanche	Location C SW	Section 15	TWP 31S	RNG (E/W) 17W	Acres Attributed
Field Wilmore		Reservoir Marmaton	Gas Gathering Connection OneOk Energy Service		
Completion Date 2/7/01		Plug Back Total Depth 5025	Packer Set at None		
Casing Size 4/5	Weight 11.6	Internal Diameter 4.00	Set at 5197	Perforations 4898	To 4900
Tubing Size 2.375	Weight 4.7	Internal Diameter 1.995	Set at 4897	Perforations	To
Type Completion (Describe) (Gas) Single		Type Fluid Production Water	Pump Unit or Traveling Plunger? <input checked="" type="checkbox"/> Yes / No Plunger Lift		
Producing Thru (Annulus / Tubing) Tubing		% Carbon Dioxide	% Nitrogen		Gas Gravity - G _g
Vertical Depth(H) 5200		Pressure Taps		(Meter Run) (Prover) Size	
Pressure Buildup: Shut in 10/1 at 12 at 07:00 (AM) (PM) Taken 10/2 at 12 at 07:00 (AM) (PM)					
Well on Line: Started _____ at _____ (AM) (PM) Taken _____ at _____ (AM) (PM)

Form G-2
(Rev. 7/03)

DEC 10 2012

KCC WICHITA

I declare under penalty of perjury under the laws of the state of Kansas that I am authorized to request exempt status under Rule K.A.R. 82-3-304 on behalf of the operator Chesapeake Operating, Inc.

and that the foregoing pressure information and statements contained on this application form are true and correct to the best of my knowledge and belief based upon available production summaries and lease records of equipment installation and/or upon type of completion or upon use being made of the gas well herein named.

I hereby request a one-year exemption from open flow testing for the Wright B 1-35 gas well on the grounds that said well:

(Check one)

- is a coalbed methane producer
- is cycled on plunger lift due to water
- is a source of natural gas for injection into an oil reservoir undergoing ER
- is on vacuum at the present time; KCC approval Docket No. _____
- is not capable of producing at a daily rate in excess of 250 mcf/D

I further agree to supply to the best of my ability any and all supporting documents deemed by Commission staff as necessary to corroborate this claim for exemption from testing.

Date: 12/7/2012

Signature: 

Title: Aletha Dewbre, Regulatory Specialist

Instructions: If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
