DEC 2 0 2012

	KCC WICHITA
	under the laws of the state of Kansas that I am authorized to request 304 on behalf of the operator Running Foxes Petroleum, Inc
	mation and statements contained on this application form are true and
	nd belief based upon available production summaries and lease records
•	ype of completion or upon use being made of the gas well herein named.
	ption from open flow testing for the Runnebaum E-4
gas well on the grounds that said well:	
gas well on the grounds that said well.	•
(Check one)	
is a coalbed metha	ne producer
is cycled on plunge	er lift due to water
is a source of natur	ral gas for injection into an oil reservoir undergoing ER
is on vacuum at the	present time; KCC approval Docket No.
	roducing at a daily rate in excess of 250 mcf/D
I further agree to supply to the bestaff as necessary to corroborate this	st of my ability any and all supporting documents deemed by Commissio claim for exemption from testing.
Date: December 15, 2012

•	Signature: Senava
	Title: V.P. of Engineering

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
