Re: Mermis A Unit 1-21
NE/4 Sec. 21-20S-15W
Barton County, Kansas
API # 15-009-25748-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Mermis A Unit 1-21 well.

The original 365 days for closure expired on 09/15/2013. This extension will expire 12/15/2013. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Very sincerely yours,

Ryan A. Hoffman
Director

Dear Kathy:

The pits associated with the drilling of the eight wells listed above have not yet been closed due to wet conditions at those sites. We would like to seek extension of at-least six months to be able to close the pits.

Your favorable consideration of this matter will be highly appreciated.

Yours truly,

Loveness Mpanje
