DEC 0 7 2012

KCC WICHITA

I declare under penalty of perju	ury under the laws of the state of Kan	sas that I am authorized to	request
exempt status under Rule K.A.R. 82	-3-304 on behalf of the operator Red H	ills Resources, Inc.	
and that the foregoing pressure inf	ormation and statements contained o	n this application form are	true and
correct to the best of my knowledge	and belief based upon available produ	iction summaries and lease	records
of equipment installation and/or upo	n type of completion or upon use being	made of the gas well hereir	named.
I hereby request a one-year exe	emption from open flow testing for the _	Theis 3-18	
gas well on the grounds that said we	ell:		
(Check one) is a coalbed met	hana producer		
<u></u>	nane producer nger lift due to water		
is a source of na	tural gas for injection into an oil reserv	oir undergoing ER	. ,
	the present time; KCC approval Docket

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
