exempt status under Rule K.A.R. 82-3-304 on behalf of the	operator MERIT ENERGY COMPANY
and that the foregoing pressure information and stateme	ents contained on this application form are true and
correct to the best of my knowledge and belief based upor	n available production summaries and lease records
of equipment installation and/or upon type of completion of	r upon use being made of the gas well herein named.
I hereby request a one-year exemption from open flow	testing for the GOING A-6
gas well on the grounds that said well:	
(Check one)	
is a coalbed methane producer	
is cycled on plunger lift due to water	
is a source of natural gas for injection i	nto an oil reservoir undergoing ER
is on vacuum at the present time; KCC	approval Docket No
is not capable of producing at a daily r	ate in excess of 250 mcf/D
	and all supporting documents deemed by Commission
staff as necessary to corroborate this claim for exemption	n from testing.

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
