Greenwood Village, CO 80111

Re: Drilling Rees Ranch #12-19

Dear Mr. Ley:

Pursuant to the requirements of the Kansas Corporation Commission (KCC) in the drilling of the above described well, SDOCO LLC, as operator, is required to obtain land owners approval to use an on-site, haul-off pit. The haul-off pit has been inspected to its location and use. This haul-off pit is required due to the well location being in an existing drainage draw.

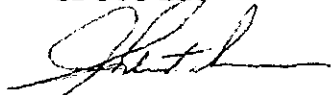

Enclosed are the necessary forms and requirements SDOCO LLC will be signatory to.

We will need your approval by signing below.

If you have any further questions, please give me a call.

Yours truly,

SDOCO LLC

J. Robert Tuck
