Re: Osage 3313 18-07HC
NW/4 Sec. 18-33S-13W
Barber County, Kansas
15-007-23963-01-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Osage 3313 18-07HC well.

The original 365 days for closure expired on 11/08/2013. This extension will expire on 06/07/2014. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond six months after the original deadline.

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RE: Osage No. 3313 18-07HC
NE/4 SE/4 SW/4 NW/4 Sec. 18-33S-13W
Barber County, KS

Dear Ms. Haynes,

I am writing to request an extension of the pit closure time for the Osage No. 18-07HC, API 15-007-23963.

Osage anticipates drilling another well in close proximity to this well within the next couple of months. At that time we plan to either utilize the existing pit or fill it in when we are in the area building the location for the new well. We would appreciate the KCC granting us an additional 120 days to decide on our plan and either utilize or close the pits.

If you need to discuss further, please don't hesitate to call me at 620-860-2225.

Sincerely,

Shaina Clark
Land Administrator
