exempt status und	der Rule K.A.R. 82-3-3	under the laws of the state of Kansas that I am authorized to request 04 on behalf of the operator Oil Producers Inc. of Kansas ation and statements contained on this application form are true and
•		belief based upon available production summaries and lease records
of equipment insta	allation and/or upon ty	pe of completion or upon use being made of the gas well herein named. tion from open flow testing for the
gas well on the gr	ounds that said well:	
(Check	is a coalbed methanis cycled on plunger is a source of naturalis on vacuum at the plus not capable of pro	
staff as necessar	to corroborate this c	laim for exemption from testing.
Date: 01/16/14		
KC	C WICHITA N 0 5 2014	Signature: C.O.O.

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
