Re: Suppes 22-3
NE/4 Sec. 22-19S-31W
Scott County, Kansas
15-171-20336-00-01

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Suppes 22-3 well.

The original 365 days for closure expired on 04/13/2014. This extension will expire 10/14/2014. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RECEIVED

RE: CDP4
Suppes 22-3
Sec. 22 19 S, 31W
Scott Kansas County

Dear Ms. Haynes:

The last of the work to put the subject well into production was done in May of this year. We have been delayed in closing the pit for this well by the rains of the last two months. Every time the dirt contractor was called, the rains filled the pit.

We are requesting a ninety day extension so that we may allow the pit to dry up and close the pit.

Should you have any questions, please do not hesitate to contact me at 601-649-7629 or rtaylor812@bellsouth.net. Thank you in advance for your attention and help in this matter.

Sincerely,

Ronald R. Taylor

NOTICE OF VIOLATION

Re: Surface Pit Closure Form(s) - ("CDP-4")

Operator:

Commission records indicate that for the well(s) on the attached list, you filed an Application for Surface Pit (CDP-1) form for each well along with your Intent to Drill.

If any drilling pits remain open, they must be closed.

Since no CDP-4 is on file for the well(s), you are in violation of K.A.R. 82-3-602(c).

We have not received the necessary Surface Pit Closure Form(s).

Commission records indicate that the well(s) were spudded more than 13 months ago.

Under K.A.R. 82-3-602, drilling pits must be closed within 12 months after the spud date of the well.

Further, an operator must submit a CDP-4 within 1 month after closing a pit.

**Failure to submit a complete, accurate CDP-4
for the pit(s) associated with the well(s) on the attached list
by JULY 15, 2014
shall be punishable by a \$100 per-well administrative penalty.**

The information requested above must be submitted on KOLAR. If a CDP-4 is returned to you as incomplete, you do not have additional time - the deadline above governs.

Please contact me at (316) 337-6200 if you have any questions.

Sincerely,

KATHY HAYNES
