Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Mary Jean 1 well.

The original 365 days for closure expired on 02/11/2014. This extension will expire 09/01/2014. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

Kathy, RJM Oil Company is requesting another extension on the above dry hole, the pits are $\frac{3}{4}$ closed but having past wheat field around them and the rain, I filed the first extension, after several attempts we just can't get in to remove the rain water and finish closing them. RJM is requesting for a 3 month extension, surely should be dry before fall crops.

Thank You
