Dear Sir or Madam:

This letter is to inform you that an additional extension of time in which to close the drilling pits associated with the Button A 1-24 well, that was requested in your letter dated April 2, 2014, has been **denied**.

The original 365 days for closure expired on August 29, 2013 and the granted extension expired on March 1, 2014. 82-3-602 states that no pit permit extension shall be extended beyond six months after the original deadline.

The drilling pits must be closed and the Closure of Surface Pit, form CDP-4, must be filed by May 2, 2014. **Failure to close the pit and file the CDP-4 by May 2, 2014, will result in a \$250 penalty for failure to timely close the pit.**

Please complete the CDP-4 through KOLAR (Kansas On-Line Automated Reporting) at <http://kolar.kgs.ku.edu> .

If you have any questions, please do not hesitate to contact me at (316) 337-6243.

Sincerely,

Kathy Haynes

Dear Sir or Madam:

This letter is to inform you that you have been granted a 90 day extension of time in which to close the drilling pits associated with the Button A 1-24 well.

The original 365 days for closure expired on 08/29/2013. This extension will expire on 03/01/2014. Conditions should have existed within this time frame to allow closure of this drill pit. **No additional extensions will be granted.**

In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,
