Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Stuart Dome 1-34 well.

The original 365 days for closure expired on 06/06/2014. This extension will expire on 09/06/2014. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but no pit permit extension shall be extended beyond **six months** after the original deadline.*

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RE: CDP-4 Extension

Dear Kathy,

This letter is in regards to a reserve pit closure that is under Samuel Gary Jr. & Associates, Inc. The pit is in the middle of a growing wheat field, and we would like to prevent damage to the wheat and close the pit after the wheat is cut within the next month. The extra time will also allow for the pit to dry out due to the amount of rain received over the past months. Our field workers will make sure that the pit is closed as soon as the wheat is cut and the pit is dry, but we will need more time. Therefore, we hereby request an extension to close & file CDP-4 for the following well:

Stuart Dome 1-34

#15-165-22028-0000

If there are any questions, or if you need any additional information, please contact Gabe D'Arthenay at 303-831-4673.

Sincerely,

SAMUEL GARY JR. & ASSOCIATES, INC.
