Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Coykendall 10 well.

The original 365 days for closure expired on 01/24/2014. This extension will expire 07/25/2014. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

Extension Request

Ms. Rains:

We are in need of another extension of time for the filling of the drilling pits on the above referenced well which expired on 5/2/14. With the recent rains the pits were still water saturated and unable to be filled by the expiration date.

Sincerely,

PICKRELL DRILLING COMPANY, INC.
