I declare under penalty of perjury under the laws of the state of Kansas that I am authorized to red	quest
exempt status under Rule K.A.R. 82-3-304 on behalf of the operator_Bear Petroleum LLC	
and that the foregoing pressure information and statements contained on this application form are true	and
correct to the best of my knowledge and belief based upon available production summaries and lease rec	cords
of equipment installation and/or upon type of completion or upon use being made of the gas well herein na	med.
I hereby request a one-year exemption from open flow testing for the Chicago Ranch A #1	
gas well on the grounds that said well:	
gas non on the grounds that said nom

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
