Describe in detail the manner in which the well was plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same and depth placed, from feet to feet for each plug set.

Lower formation plugged with 15 sacks cement and 100 lbs. lead wool to 4139. Hole was plugged with 15 sacks cement and filled with mud to 3550 and then with 15 sacks cement to 3538. Hole was plugged with 9 sacks cement to 3512 and filled with mud to 3350. Pipe was then pulled and hole filled with mud to bottom of surface pipe at 450. Hole was bridged at 450 and cemented with 6 sacks of cement. Hole was bridged 12 ft under bottom of cellar and filled with cement to bottom of cellar. Top of surface pipe was welded over at bottom of cellar.
