Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Finegan #3-13 well.

The original 365 days for closure expired on 09/09/2014. This extension will expire on 12/09/2014. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman  
Director

9/9/2014 marks one year since Ward Petroleum spud the above referenced well. To date Ward has not submitted Form CDP-4, Closure of Surface Pit; rainy weather has stalled the closing.

Ward Petroleum respectfully requests an extension to allow additional time to accomplish this closure.

Please do not hesitate to contact me if you need additional information.

Thank you for your immediate assistance.
