Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Simminger 1 well.

The original 365 days for closure expired on 10/30/2014. This extension will expire on 1/30/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

  
Ryan A. Hoffman  
Director

Located in Rawlins County, Kansas, API #15-153-20949-0000

Dear Kathy,

I am writing to request a three month Extension of Closure for the drilling pit for the above referenced well.

The drilling pit should have been closed by September 16, 2014, there has been quite a bit of rain at this location, therefore the pit has been too wet to close yet. We will close this as soon as we are able.

If you have any questions, please call 785-434-2286. Thank you for your time concerning this matter, and have a nice day.

Sincerely,

Connie Jo Austin  
Agent for The Bill Bowman Oil Company
