Re: Hadley 13  
NE/4 Sec. 20-11S-17W  
Ellis County, Kansas  
15-051-26546-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Hadley 13 well.

The original 365 days for closure expired on 08/30/2014. This extension will expire on 1/30/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman  
Director

ATTENTION: Kathy Haynes

Dear Kathy,

As per our telephone conversation on the pit closures on the Hadley # 13, API # 15-051-26546, we will need an extension because of all the rains in this area, we still have some water in the reserve pit. The drilling pits are closed.

On the Dorzweiler D #3, API # 15-051-02162, we will need an extension. We are at present installing a 5 $\frac{1}{2}$  liner and will need this pit to circulate cement into it.

Thanks for bringing this to my attention.

Sincerely,

*Leo R. Dorzweiler*
