Re: Schneweis 3
SW/4 Sec. 32-16S-11W
Barton County, Kansas
15-009-25861-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Schneweis 3 well.

The original 365 days for closure expired on 08/02/2014. This extension will expire on 1/02/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

Kathy:

This letter is to request a pit closure extension for the John Roy Evans Oil Company, LLC's Schneweis #3 (API #-15-009-25861-00-00) located at 32-16S-11W, NWSENESE, 1800'S-2185'W, Barton County, Kansas. Pit closure work began September 25, 2013, but could not be completed since the pits were still too wet to finish back filling. The landowner requested that the pits be COMPLETELY dry before filling. The pits were scheduled to be closed as soon as the farmer's wheat was harvested but due to extreme precipitation in this area right before harvest through the present date, the pits have not been completely closed. The pits will be completely closed as soon as they are dry. We have and will continue to monitor the pits and get them closed as soon as possible.

If you have any questions, please contact me at 620-793-2026 (cell). Thank you for your time in this matter.

Sincerely,

Gary Kirmer
Production Superintendent
