Re: Truan et al 1-12  
SW/4 Sec. 12-15S-16W  
Ellis County, Kansas  
15-051-26604-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Truan et al 1-12 well.

The original 365 days for closure expired on 09/05/2014. This extension will expire on 12/05/2014. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman  
Director

RE: CDP-4 Extension

Dear Kathy,

This letter is in regards to a reserve pit closure that is under Samuel Gary Jr. & Associates, Inc. Unfortunately, due to rain over the past few months, we have been unable to dry out and close the reserve pit by the due date. Our field workers are making every effort to close the reserve pit as soon as possible, and it does appear that they are slowly drying out, but we will need more time to close and file a CDP-4. Therefore, we hereby request an extension to close & file CDP-4 for the following well:

Truan et al 1-12

#15-051-26604-0000

If there are any questions, or if you need any additional information, please contact Gabe D'Arthenay at 303-831-4673.

Sincerely,

SAMUEL GARY JR. & ASSOCIATES, INC.

Stephanie Decker  
GeoTech
