Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Alexander (Wolfe) 16 well.

The original 365 days for closure expired on 08/08/2014. This extension will expire on 1/13/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Dear Kathy,

Jack Rutledge dba JR Oil would like to request an extension for closing his pit with the above referenced well. His deadline is Thursday, October 16, 2014. The night before the pit was to be filled we received 5 inches of rain and another 2 inches is expected today.

If you need any further information, please contact me on my cell (620) 870-4814 or this email [matadorinc@att.net](mailto:matadorinc@att.net). I will be watching this email closely today just in-case you need any further information for this extension.

Thank you,

Sondra Nordell
