exempt status under Rule and that the foregoing procured to the best of my lof equipment installation. I hereby request a one gas well on the grounds to	e K.A.R. 82-3-304 on behalf of the operatoressure information and statements conknowledge and belief based upon available and/or upon type of completion or upon upon upon experiences.	tained on this application form are true and ble production summaries and lease records se being made of the gas well herein named.
is cyc is a so	palbed methane producer led on plunger lift due to water purce of natural gas for injection into an o vacuum at the present time; KCC approva capable of producing at a daily rate in ex	l Docket No
-	oply to the best of my ability any and all s roborate this claim for exemption from te	upporting documents deemed by Commission sting.
	Signature: Title: FIELD MG	Un L Hallagh

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
