exempt status under Rule K.A.R. 82-3-	304 on behalf of th	e operator Foundat	
and that the foregoing pressure inforr correct to the best of my knowledge an of equipment installation and/or upon to I hereby request a one-year exemp	d belief based up	on available production or upon use being ma	on summaries and lease records ade of the gas well herein named.
gas well on the grounds that said well:			
is on vacuum at the is not capable of pr	er lift due to water al gas for injection present time; KC oducing at a daily st of my ability an	n into an oil reservoir C approval Docket No rate in excess of 256 y and all supporting d	)
71/12/2014 Date:			
		Lukil	Parther

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The foregree signed and dated on the front side as though it was a verified report of annual test results.
