I declare under penalty of perjury under the laws of the state exempt status under Rule K.A.R. 82-3-304 on behalf of the operate and that the foregoing pressure information and statements corcorrect to the best of my knowledge and belief based upon availated of equipment installation and/or upon type of completion or upon to	Dr Berexco LLC Intained on this application form are true and lible production summaries and lease records
I hereby request a one-year exemption from open flow testing gas well on the grounds that said well:	for the Morton #1-35
(Check one) is a coalbed methane producer is cycled on plunger lift due to water is a source of natural gas for injection into an element is on vacuum at the present time; KCC approviate is not capable of producing at a daily rate in element is not capable of producing at a daily rate in element is necessary to corroborate this claim for exemption from the date: 1 2/8/14	al Docket Noexcess of 250 mcf/D supporting documents deemed by Commissio
Signature:	

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
