I declare under penalty of perjury under the laws of the state exempt status under Rule K.A.R. 82-3-304 on behalf of the operator	-
and that the foregoing pressure information and statements cor correct to the best of my knowledge and belief based upon availa of equipment installation and/or upon type of completion or upon thereby request a one-year exemption from open flow testing	ntained on this application form are true and ble production summaries and lease records use being made of the gas well herein named.
gas well on the grounds that said well: (Check one) is a coalbed methane producer	CC WICHITA DEC 1 2 2014
is cycled on plunger lift due to water is a source of natural gas for injection into an is on vacuum at the present time; KCC approv is not capable of producing at a daily rate in e	al Docket No.
I further agree to supply to the best of my ability any and all staff as necessary to corroborate this claim for exemption from t	
Date: 12/5/14	
	A Bly

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
