	the laws of the state of Kansas that I am authorized to request behalf of the operator American Warrior Inc.
and that the foregoing pressure information	and statements contained on this application form are true and
of equipment installation and/or upon type of	of based upon available production summaries and lease records completion or upon use being made of the gas well herein named.
I hereby request a one-year exemption frogas well on the grounds that said well:	om open flow testing for the Gillett #2
(Check one)	Received KANSAS CORPORATION COMMISSION
is on vacuum at the prese	- ' ' '
staff as necessary to corroborate this claim f	y ability any and all supporting documents deemed by Commissior for exemption from testing.
Date: <u>12/12/2014</u>	

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
