exempt status under Rule K.A.R. 82-3-304 on behalf of and that the foregoing pressure information and state correct to the best of my knowledge and belief based u	ements contained on this application form are true and upon available production summaries and lease records on or upon use being made of the gas well herein named.
is on vacuum at the present time; K is not capable of producing at a da	on into an oil reservoir undergoing ER CC approval Docket No ily rate in excess of 250 mcf/D ny and all supporting documents deemed by Commission
Date: DECEMBER 22, 2014	
Signature: _ Title: _	JANNA BURTON Jama Burton REGULATORY ANALYST

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
