		For Co	nmissi	on		DEC 2	9 2014 _	JANN	IA BUR		ama Bus	itom		

I declare under penalty of perjury under the laws exempt status under Rule K.A.R. 82-3-304 on behalf of	s of the state of Kansas that I am authorized to request the operator MERIT ENERGY COMPANY								
and that the foregoing pressure information and state correct to the best of my knowledge and belief based of equipment installation and/or upon type of completion	ements contained on this application form are true and upon available production summaries and lease records on or upon use being made of the gas well herein named.								
I hereby request a one-year exemption from open gas well on the grounds that said well:	flow testing for the CHARLES 2-12								
is on vacuum at the present time; k is not capable of producing at a da	ion into an oil reservoir undergoing ER CCC approval Docket No aily rate in excess of 250 mcf/D any and all supporting documents deemed by Commission								
Signature:	JANNA BURTON Jame Buton								
Title: REGULATORY ANALYST									

## Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
