exempt status under Rule K.A.R. 82-3-30- and that the foregoing pressure information correct to the best of my knowledge and to of equipment installation and/or upon type	nder the laws of the state of Kansas that I am authorized to request 4 on behalf of the operator Zenergy, Inc.  tion and statements contained on this application form are true and belief based upon available production summaries and lease records a of completion or upon use being made of the gas well herein named. On from open flow testing for the Bobbie #1-8
is on vacuum at the pr is not capable of prod	ift due to water gas for injection into an oil reservoir undergoing ER resent time; KCC approval Docket No lucing at a daily rate in excess of 250 mcf/D of my ability any and all supporting documents deemed by Commission
Date: 12-29-2014  Received KANSAS CORPORATION COMMISSION	
DEC 3 1 2014  CONSERVATION DIVISION WICHITA, KS	Signature:

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
