	r penalty of perjury under the laws of the er Rule K.A.R. 82-3-304 on behalf of the op	e state of Kansas that I am authorized to request erator_Sandridge Expl & Prod LLC
and that the foreg	oing pressure information and statement	s contained on this application form are true and
correct to the bes	of my knowledge and belief based upon a	vailable production summaries and lease records
of equipment insta	lation and/or upon type of completion or up	pon use being made of the gas well herein named.
I hereby requ	st a one-year exemption from open flow te	sting for the Rexford 1-30
gas well on the gr	unds that said well:	
_	is a coalbed methane producer is cycled on plunger lift due to water is a source of natural gas for injection into is on vacuum at the present time; KCC ap is not capable of producing at a daily rate	proval Docket No e in excess of 250 mcf/D d all supporting documents deemed by Commission
ŀ	CC WICHITA Signature: FEB 2 7 2015 Title: RECEIVED	SR PRODUCTION ENGINEER

## Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
