RECEIVED

		under the laws of the state of Kansas that I am authorized to request 304 on behalf of the operator Sandridge Expl & Prod LLC						
		nation and statements contained on this application form are true and						
correct to the best	of my knowledge an	d belief based upon available production summaries and lease records						
	•	ype of completion or upon use being made of the gas well herein named.						
		otion from open flow testing for the Schmidt 1-30						
gas well on the gr	ounds that said well:							
(Check	one)							
is a coalbed methane producer								
	is cycled on plunge	r lift due to water						
	is a source of natura	al gas for injection into an oil reservoir undergoing ER						
	is on vacuum at the	present time; KCC approval Docket No						
<b>✓</b>	is not capable of pr	oducing at a daily rate in excess of 250 mcf/D						
_		st of my ability any and all supporting documents deemed by Commission claim for exemption from testing.						
Date: 02/25/2015	<u>;                                    </u>

## Instructions:

if a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
