Butler County, Kansas

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Everley 12-44-1-43H well.

The original 365 days for closure expires on 01/01/2015. This extension will expire on 4/01/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman  
Director

**Re Everley 12-44-1-43H (15-015-24010-01-00) Surface Pit Closure**

Dear Kansas Corporation Commission (KCC),

This letter requests an extension on the due date for the Surface Pit Closure Form for Source Energy MidCon LLC's **Everley 12-44-1-43H** well. Pit closure efforts are currently being made as weather conditions allow. Due to the possibility of inclement weather preventing us from meeting the pit closure deadline, we are requesting additional time for pit closure procedures to ensure that the pit is properly dried out before we proceed with the finalization of the pit closure

Please feel free to contact me at 720-354-4972 or email [rfarmer@sourceep.com](mailto:rfarmer@sourceep.com)
