CONSERVATION DIVISION WICHITA, KS

I declare under penalty or perjury under the laws of the state of Kansas that I am aut exempt status under Rule K.A.R. 82-3-304 on behalf of the operator Anadarko E&P O and that the foregoing information and statements contained on this application form are true and correct the best of my knowledge and belief based upon gas production records and records of equipment instation and/or of type completion or upon use of the gas well herin named. I hereby request a permanent exemption form open flow testing for the Brown C***3 gas well on the grounds that said well: (Check One)	ct to
is a coalbed methane producer is cycled on plunger lift due to water is a source of natural gas for injection into an oil reservoir undergoing ER is on vacuume at the present time; KCC approval Docket No. is incapable of producing at a daily rate in excess of 150 mcf/D	_
Date: 3/30/2015 Signature: Charton Title: Production Enginee	

Instructions All active gas wells must have at least on original G-2 form on file with the conservation division. If a gas well meets the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to obtain a testing exemption.

At some point during the succeeding calender year, wellhead shut-in pressure shall be measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under "observed surface data." Shut-in pressure shall therafter be reported yearley in the same manner.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than thirty (30) days after the taking of the pressure reading. The form must be signed and dated on the front side as though it was a verified report of test results.
