exempt status under Rule K.A.R. 82-3-304 on beh	laws of the state of Kansas that I a alf of the operator White Pine Petro	
and that the foregoing pressure information and		
correct to the best of my knowledge and belief ba	sed upon available production sumr	maries and lease records
of equipment installation and/or upon type of com	oletion or upon use being made of th	e gas well herein named.
I hereby request a one-year exemption from	pen flow testing for the Adams #2	
gas well on the grounds that said well:		KANSAS CORPORATION COM
(Check one)		FEB 2 3 201
is a coalbed methane produce	r ·	CONSERVATION DIVISION
is cycled on plunger lift due to	water	WICHITA, KS
is a source of natural gas for i	njection into an oil reservoir undergo	oing ER
is on vacuum at the present ti	ne; KCC approval Docket No	
is not capable of producing at	a daily rate in excess of 250 mcf/D	
I further agree to supply to the best of my ab	lity any and all supporting documer	nts deemed by Commission
staff as necessary to corroborate this claim for e	kemption from testing.

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
