Re: Jenisch 2-34
SE/4 Sec. 34-16S-12W
Barton County, Kansas
15-009-25917-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Jenisch 2-34 well.

The original 365 days for closure expired on 02/12/2015. This extension will expire on 7/17/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

Dear Kathy

Please allow us 6 months extension on filling the pit on the Jenisch 2-34. Our dozer operator checked the condition of the drilling pit on March 19, 2015. The pit has a rock bottom and does not allow the water to soak into the ground. The Jenisch pit is still not dried out and can't be filled at this time.

Thank you for allowing us the extension. I am sorry about the violation we have, I can't turn in the CDP-4 form at this time.

Sincerely

Marilyn Davis
