Re: Hug 01
NW/4 Sec. 34-08S-15E
Jackson County, Kansas
15-085-20087-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the Hug 01 well.

The original 365 days for closure expired on 11/13/2014. This extension will expire 5/13/2015. **No additional extensions will be granted.** In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

Failure to close the pit prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a).

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman
Director

RE: Pit disclosure extension

Kathy Haynes,

We are requesting an extension on Hug #1 well located in Jackson County, Kansas Sec. 34, T8, Range 15E (API # 15-085-20087-00-00). The reason we need an extension is that in 2014, we had a wet season in NE Kansas. The pit is made of Native clay soil, which holds rain water like a pond. We have been waiting for this to dry up, so we can fill in the pit.

Cordially,

Jason Pickerell, member
