Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the Tony Klepper 4-1 well.

The original 365 days for closure expired on 04/07/2015. This extension will expire on 7/07/2015. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form, **but not the time period for filing the waste transfer form (CDP-5).**

*Failure to close the pit or request an additional extension prior to the expiration date shall result in a monetary penalty in accordance with K.A.R. 82-3-602(a). An additional pit extension may be renewed upon request, but **no pit permit extension shall be extended beyond six months after the original deadline.***

Please complete the pit closure form (CDP-4) through Kolar (Kansas On-Line Automated Reporting) at <https://kolar.kgs.ku.edu>.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

Ryan A. Hoffman

Dear Kathy:

Due to weather conditions, the Surface Pits for the 2 wells indicated above have not been closed since they are not yet completely dried out. As soon as the pits have had a chance to dry out completely, I fully intend to close the pits and file the necessary Surface Pit Closure Form(s). Therefore, I request an extension of time for Surface Pit Closures for each of the wells indicated above. If you have any questions or need any additional information, please give me a call at (620)793-4023. Thank you for your prompt attention to this matter.

Sincerely,
