RE: Moore 21-11-8
NESW Sec 21, T31S, R21W
Clark County, Kansas
API No. ~~T5-025-21321-00-00~~

Dear Jim:

Enclosed are the volume statements for the above captioned well, Moore 21-11 and the Birney 2-7. DOC had submitted G2 forms for both in August requesting that the KCC give exempt status on the testing requirements on these wells since neither is capable of producing 250 MCFPD.

DOC has not had a response from the KCC on this issue as of this date. Please advise me of the status of the exemption request.

Please call if you have any questions.

Sincerely,

Bill Warburton
Consulting Engineer
