					RECEIV						

• • • •	rjury under the laws of the state of Kansas that I am authorized to request 32-3-304 on behalf of the operator Bear Petroleum LLC					
	nformation and statements contained on this application form are true and					
correct to the best of my knowledg	ge and belief based upon available production summaries and lease records					
of equipment installation and/or up	oon type of completion or upon use being made of the gas well herein named.					
I hereby request a one-year e	xemption from open flow testing for the					
gas well on the grounds that said	well:					
(Check one)						
is a coalbed methane producer is cycled on plunger lift due to water						
	at the present time; KCC approval Docket No					
is not capable	of producing at a daily rate in excess of 250 mcf/D					
I further agree to supply to th	e best of my ability any and all supporting documents deemed by Commission					
	this claim for exemption from testing.

RECEIVED						

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
