exempt status under Rule K.A.R. 82-3-304 on I and that the foregoing pressure information a correct to the best of my knowledge and belief of equipment installation and/or upon type of c	the laws of the state of Kansas that I am auth behalf of the operator Pickrell Drilling Compan and statements contained on this application f based upon available production summaries a completion or upon use being made of the gas we om open flow testing for the Young "A" #3	form are true and and lease records
is on vacuum at the present is not capable of producing	nt time; KCC approval Docket No g at a daily rate in excess of 250 mcf/D v ability any and all supporting documents dee	
Date: _08/07/15	Well started 3-19-15: March 2015 April May June Title: Engineer Sales (MCF) 181 1374 1374 1681	1

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
