Dear Kenneth C. Gates,

This letter is to notify you that the Conservation Division is in receipt of your plugging proposal, form CP-1, for the above-captioned well.

Your CP-1 has been reviewed by the Conservation Division central office for completeness and to verify license numbers. The plugging proposal will now be forwarded to the district office listed below for review of your proposed method of plugging.

Please contact the district office for approval of your proposed plugging method at least at five (5) days before plugging the well, pursuant to K.A.R. 82-3-113 (b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit.

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well.

This notice in no way constitutes authorization to plug the above-captioned well by persons not having legal rights of ownership or interest in the well. This notice is void after ninety (90) days from the above date.

Sincerely,

A handwritten signature in black ink, appearing to read "David P. Williams".

RE: O'Dell Leases in Stafford County, Kansas

Dear Sir

I am asking the Commission to waive the renewal of the license of the operator to plugged the above leases and the plugging fees. The former operator of the lease in Stafford County, Kansas had let his KCC operator license expire. The former operator is unable to conduct field work due to a long time spinal injury. He is currently in a nursing home in St. John, Kansas in a wheel chair. Before his health deteriorated any further he wanted the wells to be plugged and the leases cleaned up.

Please accept the request of the waive so that Mr. Don Schwertferger could go ahead and live in peace that the wells were plugged out and leases returned to the landowner with the KCC approval.

Sincerely,

Kenneth C. Gates
President
